

CORNER RADIUS CHART

If you don't want the standard .125" radius, choose a custom radius from the chart below that most closely matches your radius, and select in the pulldown in the order cart.

Standard radius provided on a square or rectangular tops is .125" or 1/8"

1 inch

2 inches

After printing out this sheet, using a ruler or tape measure, check to see if your ruler basically matches the length of the black lines shown for "1 inch" and "2 inches." This will then indicate a correct radius shape above.
